04	Aged Brass
08	Polished Brass
12	Brushed Nickel
16	Brushed Gold
20	Gunmetal Grey
24	Matte Black

Aged Brass

Aged Brass; the most classic and pure form of bathroom ornament. It's warm hues and unique aging process provide a mesmerising point of difference.

Aged naturally, brass displays a rich marbled effect - with blemishes and veins throughout. This brass is not coated or waxed, which allows the brass to patina gracefully even further. A brass cleaner can be used to brighten the surface to your liking.

Aged Brass Sliding Handle

Polished Brass

Champagne brass, contrasted and toned back by the *series'* Matte Black foundation, provides just enough sparkle to dazzle without overpowering your bathroom.

Polished Brass adds a stunning colour to your bathroom. The uncoated brass will age – both to the touch, and the unique conditions of your bathroom. If desired, the brass can be polished with Brasso or similar to maintain a beautiful polished surface.

Brushed Nickel

The delicate tones of Brushed Nickel sit comfortably alongside light timbers, and contrast dark tiles beautifully. Subtle and soft – Brushed Nickel is a big hit.

Brushed Nickel is an elegant emerging finish, especially in architectural homes where the finer details are the most important ones. Perfect for in a monochromatic bathroom design, combining with timbers, or pairing with stunning pastel hues.

Gunmetal Grey

One of the most on-trend 'feature tapware' choices in 2019, Gunmetal Grey is sure to set your bathroom apart with its rich and dark matte finish.

Create *your* extraordinary with stunning Gunmetal Grey. This choice is popular amongst interior designers for its ability to create sharp contrast in modern bathrooms. Add softness with timbers, and pair with light tones of your choice.
